FCC Form 396 Employment Program Report

**NORTH COUNTY COMMUNICATIONS, LLC
Paso Robles, CA**

Narrative Statement

As set forth in its 2011 and 2012 Annual EEO Public File Reports, during the prior two years, the employment unit achieved broad outreach to its community by participating in four business expos, hosting six station tours, two job interns, and having station management and personnel speak at a variety of public locations five times in that time frame. During the station tours, local students were introduced to employees and to department heads where possible, who described their jobs. On some occasions, the students are included in a production exercise in the hope that the production exercise would interest them in future broadcasting careers. Because the station is located in a small market, one-one-one contact through these tours, business expos, job shadowing and speaking engagements help to spread the word about career opportunities in broadcasting.

The station also runs announcements to invite community groups to contact the stations about being added to their public service announcement contact list.

The station disseminated information about the four job openings filled during the past two years by announcing all openings over the air, posting the notices with local colleges and asking employees to spread the word about job openings.

In addition, the station includes a statement in their job notices that they are an Equal Opportunity Employer or "EOE". The station's web site also indicates that the licensee is an equal opportunity employer. The employment application used by the stations provides notice of its non-discrimination policy on the application form and broadcast agreements, which is also posted on the station's web site.
