Moms for Liberty to Join Forces with Protect Kids CA

San Luis Obispo County, CA- Recent polls show that at least 68% of registered California voters oppose radical gender ideology involving minors. This accounts for Democrats, Republicans, and Independents. This is truly a non-partisan issue. Protect Kids CA is an organization that has been working diligently for the last year to create a ballot initiative to push back against this destructive agenda. The proposed language for the ballot initiative was just approved. Now it's time to get this ballot measure directly to the California voters! Due to the significance of this very important matter, the National Moms for Liberty Organization has made the extraordinary decision to authorize the California Moms for Liberty chapters to work in collaboration with Protect Kids CA. The objective is to collect over a million signatures of registered CA voters, which will ensure the ballot measure makes it onto the November 2024 Ballot.

The one Ballot Initiative has three components. They are:

1. Protect Girls Sports and private spaces.
2. Parental Notification requirements from school if a child changes their "Gender Identity" at school.
3. Prohibit (most) medical transitioning of minors.

Go to ProtectKidsCA.com to download a petition or make a financial contribution to the very important cause. You can also contact any of the Moms for Liberty Chapters in California, listed below, to sign the petition. Moms for Liberty will collect the signed petitions and get them directly to the Protect Kids CA headquarters.
