Temporary Closure of Jack Creek Road in Templeton

TEMPLETON – The San Luis Obispo County Public Works Department will begin initial work on the Jack Creek Road Bridge Replacement Project located north of Highway 46 and west of Templeton. The initial work will require the closure of Jack Creek Road at the bridge from 7:00 a.m. to 3:30 p.m. February 24 through February 28. The road will re-open each day after 3:30 p.m. and will remain open overnight.

This initial work on the bridge, which spans Paso Robles Creek, is necessary before the bridge is replaced later this summer. The project represents a critical investment in the region's transportation network and will enhance safety and reliability for residents and visitors.

During this initial phase of construction, Jack Creek Road will be closed to all traffic at the bridge location; however, emergency vehicles will be allowed to cross the bridge. Drivers are advised to use the designated detour route via Vineyard Drive. Detour signs will be clearly posted to assist motorists.
