Riverwalk Trail Closure for Asphalt Repairs and Slurry Sealing

PASO ROBLES, CA – The City of Paso Robles Community Services Department announces the temporary closure of a segment of the Riverwalk trail for essential asphalt repairs and slurry sealing. The closure is scheduled to happen Monday, January 26, 2026 through Friday, February 13, 2026. The closed section of the Riverwalk trail is along River Road extending North and South of the Rader Bridge (13th Street bridge) in Paso Robles.

“This repair project is part of the city's ongoing efforts to improve and maintain our community's infrastructure,” said Angelica Fortin, Community Services Director for the City of Paso Robles. “This corrective maintenance will ensure that the trail remains a safe and enjoyable route for pedestrians and cyclists for years to come.”

During this closure, the community is asked to adhere to all posted signage and detours. Closure and detour signs have been placed at trail heads to notify pedestrians.

For further updates and information, please contact the Community Services Department at (805) 237-3988 or email parks@prcity.com
