Assault with a Deadly Weapon

On 05/26/24, the Paso Robles Police Department received a report of a male seeking medical treatment for a gunshot wound at a local hospital. Despite the victim's reluctance to provide a statement, information from family members placed him in the vicinity of 34th St. and Spring St. Subsequent investigation led officers to evidence suggesting the shooting likely occurred at an apartment in the 3500 block of Spring St. A search warrant was executed, and further evidence was located within the residence, including a loaded firearm. A female and two males were taken into custody.

The case remains under investigation. Anyone with information is urged to contact the Paso Robles Police Department.
