Paso Robles Hosts Community Open House to Present Niblick Road Corridor Improvement Plans

PASO ROBLES, CA – The City of Paso Robles invites the public to a Community Open House on August 13, 2025, from 5:30 PM to 7:00 PM in the City Council Chambers to showcase the final design plans for the Niblick Road Corridor Improvement Project. These plans aim to transform Niblick Road into a safer, more accessible, and aesthetically improved corridor for all users.

Event Details:

- **What:** Community Open House for Niblick Road Corridor Improvement Plans
- **When:** Wednesday, August 13, 2025, from 5:30 PM to 7:00 PM
- **Where:** Paso Robles City Council Chambers
- **Who:** Open to all Paso Robles community members

The Niblick Road Corridor project was developed after extensive planning and multiple community input sessions, including open houses, a design charette, and field observations by PRHS students and corridor users. This final design presentation marks the culmination of a comprehensive community-driven planning effort that began in 2018.

Supported by a \$17 million Active Transportation Program (ATP) Grant, the project will enable the City to move into the construction phase, implementing safety and accessibility improvements along Niblick Road. Enhancements will include new bike and pedestrian pathways, traffic calming measures, artistic and landscaping elements, and improved lighting. Additionally, a raised multi-use path will be installed to separate pedestrian and bike traffic from vehicle lanes, increasing safety and accessibility along the corridor.

This open house offers residents the opportunity to view detailed design plans, discuss project specifics with City staff, and provide final input on the project that will shape a significant city transportation route.

For more information, please contact the City of Paso Robles Public Works Department at 805.237.3861 or go to <https://www.prcity.com/849/Niblick-Corridor-Plan>.

This open house is part of the City's ongoing efforts to engage residents in the design and development process, ensuring that Paso Robles' infrastructure grows in alignment with the community's needs and vision.
